

Representative Viewpoint 7 (Left) - Public footpath RHOSYBOL|44/001/1 to west of Ty-Newydd

Existing View

This viewpoint is representative of users of the public footpath RHOSYBOL|44/001/1, west of the property at Ty-Newydd at the north of Rhosybol and is located approximately 49m from Maen Hir North. The left of the view comprises rough pastoral fields from the foreground to midground, with tussocky wet grassland in the lower lying areas. The view to the left is open, featuring further geometric pastoral fields bounded by short hedgerows and frequent small hedgerow trees. Some isolated farms can be seen with 400kV pylons and overhead lines visible on the skyline in the background. To the centre and right of the view, the large pastoral field in which the viewpoint sits rises to foreshorten the views.

Operation Phase

Maen Hir North and Central would be visible to the west to varying degrees. Field 50 (mitigation and enhancement area) is visible in the midground to the left and centre left of the view, but the rest of Maen Hir North is screened by the rising landform to the north. To the centre left, elevated sections of Maen Hir Central can be seen, with Fields 112 including the Project BESS and Substation perceptible in the midground view. During the operation phase, there is likely to be a **Small** (adverse) scale effect prior to and once the embedded mitigation has established.
